Or maybe provide us some lessons at the end of the Session so we all can learn Hawaiian. Thank you."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I stand in strong support of H.B. 1926-Relating to assaults against medical service providers, which would expand the offense of assault in the second degree to medical services providers while on-duty.

"We must look to testimony provided by the Healthcare Association of Hawaii, where it states that, "The rate of assaults and violent acts against health care workers is more than 10 times the average rate." The testimony continues by saying up to 80% of hospital staff have been "physically assaulted at least once" while on duty. Numbers like these do no encourage new medical providers to join the workforce, where there is currently a shortage.

"The importance of this bill goes beyond the medical facility. This bill protects service providers, who not only spend years in study to practice their profession, but are additionally pre-disposed to potentially hazardous work environments. We must keep doctors and nurses safe from violence. Thank you."

Representative Chong moved that the report of the Committees be adopted, and that H.B. No. 1917, HD 1, pass Second Reading and be referred to the Committee on Judiciary, seconded by Representative Evans.

Representative Yamane rose to speak in support of the measure with reservations, stating:

"Mr. Speaker. On Stand. Com. Report. No. 277-12, I would like to cast a vote with reservations. Please allow me a brief moment to explain my reservations. Thank you. Mr. Speaker, I applaud the intent of the bill to protect and fight against domestic violence. My reservation is regards to the fact that there are other professions, not only law enforcement, that have individuals that engage in domestic violence. And so targeting only law enforcement officers, I think, might characterize them as being perceived as having a higher incidence of domestic violence.

"Members, you know our law enforcement work with us on catching and penalizing these types of individuals and so we would not want them to be perceived as being part of the problem, but rather to know that they're part of the solution."

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. On the measure before us, in support. Thank you, Mr. Speaker. The Honolulu Police Department reports that up to half of their calls relate to domestic violence. I want to thank Public Safety for recommending an amendment to this measure, to broaden the scope. Law enforcement are the first ones on the scene at a domestic violence situation. They need to have a proper policy in place. I think this is a good measure and I ask all Members to support it. Thank you, Mr. Speaker."

Representative Cullen rose in support of the measure with reservations and asked that the remarks of Representative Yamane be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Keith-Agaran rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Keith-Agaran written remarks are as follows:

"Thank you, Mr. Speaker. I stand in support of this measure with reservations.

"I recognize the seriousness of domestic violence problems in our community and for this reason feel compelled to move this measure forward. However, I am concerned that this bill singles out law enforcement officers who have already received training regarding domestic violence and who already face the sanction of losing their jobs under the requirements of the Lautenberg Amendment.

"This bill is likely unnecessary. This bill proposes law enforcement agencies adopt and implement a written policy for officers charged with domestic violence. The police department has already established internal rules and regulations on the matter.

"Since the Lautenberg Amendment already applies, law enforcement officers who lose use of their weapons also lose their jobs as a result (they no longer meet the qualifications of police officers who must be able to use firearms)."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and H.B. No. 1917, HD 1, entitled: "A BILL FOR AN ACT RELATING TO DOMESTIC VIOLENCE," passed Second Reading and was referred to the Committee on Judiciary, with Representatives C. Lee and M. Lee being excused.

Representatives McKelvey and Cabanilla, for the Committee on Economic Revitalization & Business and the Committee on Housing presented a report (Stand. Com. Rep. No. 278-12) recommending that H.B. No. 2103, as amended in HD 1, pass Second Reading and be referred to the Committee on Consumer Protection & Commerce.

Representative Chong moved that the report of the Committees be adopted, and that H.B. No. 2103, HD 1, pass Second Reading and be referred to the Committee on Consumer Protection & Commerce, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Thank you, Mr. Speaker. Mr. Speaker, this is the real thing. This is not a study. Remember we talked about the State Bank last week, and said, 'Look it's only a study.' This is the real McCoy. This is the bank that will be established as the State of Hawaii Bank and quite frankly, I don't want repeat what I said last time so we've done a little bit of homework. We've looked in to it. We don't want to reinvent the wheel, so we're looked at other states and what they're doing.

"In Massachusetts, lo and behold, they actually went through a few months ago what we are going through now. They did some research and I want to cite a couple of things that they found out.

"First of all, they found out that publicly-owned banks are really not a phenomenon that are in developed in countries. It's usually in third world countries that the state owns the banking. Our good friend from Downtown Honolulu mentioned that China is the leading state bank successful example. Right now, there's not been even a consideration of a state owned bank since 1970, and the bank of North Dakota actually began in 1919. And they Mr. Speaker, started out with a \$2 million capitalization. And in the Massachusetts' study it says, 'The original capitalization, if put in today's dollars for a similar start up would be \$3.2 billion.'

"I ask my colleagues, do you want to get a state bank with \$3.2 billion? Because you see the model of North Dakota and you want to make this the State Bank of Hawaii, when we don't even a funded liability for our pensions, for our trust funds, for our health program.

"Another revealing statistic was that the State Bank of North Dakota has \$4 billion in assets. Guess what? The Bank of Hawaii has \$4 billion in assets. Guess how many years Bank of Hawaii's been around to get \$4 billion in assets. And almost 100 years of the Bank of North Dakota. We are not going to get an immediate return on this unless we really put a lot of money in to it. I know the intention of getting the money into it is to buy these foreclosed mortgages. I ask my colleagues, do you want your constituents to bail out the banking industry that has already been bailed out, and the mortgage industry that owes a lot of money to the taxpayers already?

"In addition to that, it is not the FDIC that the deposits are insured by in the Bank of North Dakota. It's the taxpayers of North Dakota. So this is another reminder that the burden of proof of the viability of this is not on the organizers of the bank, but those who are the taxpayers in the State of Hawaii. I know some people took a little bit of umbrage when I said, do you know who they've got on the first Bank of Hawaii? It's the Governor's political appointees who are going to be the board of directors. Well guess who runs the Bank of North Dakota. It's run and overseen by three commissioners. The first primary commissioner is the Governor, the

second is the Attorney General, then there's an agricultural commissioner. So do you see a little bit of political stuff mixed in to this? I think it's as we had predicted.

"The other thing about the Bank of North Dakota that we have to realize is that it was really put in place for farming and now, it's not even doing farming loans. 50% of its loans are actually buying the loans of small banks. North Dakota is rural and they have a lot of small banks. So basically half of their business is simply buying up loans from small banks. Hawaii has a handful of banks, but do you see any hue and cry for small banks to say, 'We need you, Bank of the State of Hawaii to buy loans from us.' There's no hue and cry from our small bankers.

"Another interesting point I think that which we forget thinking is that North Dakota by its bank has been successful. It mentions in the Massachusetts' study, and this is not me saying it. It's saying North Dakota has fared exceptionally well during the recent national recession. People have to be mindful that North Dakota's overall performance is mostly attributable to oil and natural gas extraction and high commodity prices. And it is me when I say it's also run by Republicans who are conservative, fiscally responsible people. And that's another reason why this thing works. It's because of the economy there, and who's running it, as well as the oil and the extraction industries that are driving it.

"Mr. Speaker, I should also add that the small business loans ..."

Representative Fontaine rose to yield his time, and the Chair "so ordered."

Representative Ward continued, stating:

"My goodness. And this is not even Third Reading yet, but this is important stuff. Again, I am not speaking. It's the study that Massachusetts that did, because it said that there were like 18 other states that were considering to do this bank and Massachusetts says, 'We're out of here. After this study we have decided not to do it.' So I say that as a way to say, we don't have to reinvent the wheel because Massachusetts gathered all this information.

"Basically what they said was the burden of proof of loans to our small businesses should be the federal government, not just the state bank. Two-thirds of the profits of the State Bank of North Dakota actually do go back to the State, but that also says that one-third of their costs are administration. And whenever you're in a business that takes 33 1/3% just to run it, that's rather high. What they do put in the coffers is \$30 million so the benefit is substantial. \$30 million a year is substantial, but remember that this is a bank that's been in business almost 95 years. We're talking about starting from scratch, and it's going to be an elixir because we're going to make money on buying mortgages at 75 cents on the dollar."

"The other thing we need to know is that the state bank is liable, or the state is liable for any of the bank's losses. And I think I mentioned that in terms of our own constituents. One of the kickers here in addition is the fact that the DCCA Director has noted as follows: Arguably, the soundness of Hawaii's financial institutions may be compromised and jeopardized by transferring state moneys to a state owned bank."

"The point is Mr. Speaker, that we have two of the healthiest banks in the nation. They have fared very well. There's no shortage of capital. They're not in just to bail out the mainland banks that have primarily cheated a lot of our residents or stonewalling our residents. And to say that we should put this burden on our constituents is what I'm basically arguing against. That's the bottom line.

"And finally, do we really want to pony up \$3 billion to do what the Bank of North Dakota did? I think it's a resounding no. I think if we asked our constituents, if we ask ourselves, can we afford to do a bank, to do high-risk loans with the state of the economy the way it is today, I think it's obvious, Mr. Speaker.

"Thank you, for your indulgence. And I hope everybody sort of starts changing their thinking. Perhaps maybe government is not the best to get

into the banking industry. Maybe we should rethink what we're good at and stick to our knitting, in those areas, and not go too far out on a limb as North Dakota did, and did well 100 years ago in an entirely different climate. Thank you, Mr. Speaker."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you Mr. Speaker. In opposition as well, and I'd like to ask to ask that the remarks of the Minority Leader be entered as my own. I just wanted to recap just a few comments, distilling it down to what I think is my concern.

"In understanding how we prosper and how we provide excellent service, and the way that in general I feel that our system of government and system of business works is that when you have competition, when you have a monopoly there is a real chance of people saying, 'Well come to me, or you don't come to me.' That's life. You know. Whether it's a gas situation, or the only place you go to a super market, competition brings out work, and people wanting to be the best. They want to work hard. They want to do the best they can, because they know if they're Bank of Hawaii, but First Hawaiian Bank is doing something. Hey, great. But when you enter into the mix an uneven playing field where basically you have the illustrious and credible, never-ending taxation of the people. We just keep saying, 'Well, you know this is your money and we're going to do this'. When you don't have an even playing field the problem is that you discourage people.

"And you discourage people from working and doing what's best, good ideas, new ideas. That sort of thing. How can I do this better? And so to me, the real pitfall when I distill it down, and I know you can say North Dakota and this and that. And I agree with the Minority Leader. You always have to look in the environment. Just like a patient. Not every patient is all the same. Look at independent uniqueness. Hawaii is not North Dakota. I think that when we don't encourage competition, we don't encourage an even playing field, you hurt the young people. Because if they don't think they're going to have a fair shake, they're not going to stay. We want people to want to stay because I know that through their merit, through their merit they can do well. Thank you, Mr. Speaker"

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"I rise in support with reservations on HB 2103. The creation of a state-owned bank is an incredibly complex undertaking in relatively unknown territory for the State of Hawaii. Taxpayers should be assured the bank will possess the necessary expertise to properly operate. The State already struggles to balance and effectively govern its existing bureaucracies and I fear it may prove unwise to further burden a state government already stretched thin. I also believe the creation of a state-owned bank has potential to create unintended consequences and burdens for the taxpayers of Hawaii, particularly if it lacks the necessary operational mechanisms to achieve its ultimate goal. While I do honor the intent of the measure and want to help those in our community who are threatened with foreclosure, I have reservations as to whether or not the State of Hawaii is equipped to tackle a venture of this size and scope. For those reasons, I will be voting with reservations."

Representative Riviere rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

These entities assist small businesses in payroll services, and making sure they pay their correct amount of payroll taxes, and assist in businesses acquiring various insurance that is required.

"I do not see any need to regulate this industry. I have not heard about any complaints from small businesses in this regard. I think before we enact such legislation, we should be requesting a sunrise study, especially since this bill calls for penalties up to \$2,500. I don't think our businesses should be regulated by the Department of Labor. I feel that it should be perhaps, if we decide it should be regulated, it should be in the Department of Commerce and Consumer Protection. Thank you."

ANNOUNCEMENTS

Representative Yamane: "Mr. Speaker, I rise to request a moment of silence. Former legislator and spouse of our current Representative Marilyn Lee passed away this morning at 12:45 a.m. Samuel served with some of you here today. He is survived by our colleague, Representative Marilyn Lee, as well as four children: Andrew, John, Mary and Thomas. Mr. Speaker, from Marilyn's discussion this morning, he passed away peacefully, and we would like to express our deep-felt thoughts and prayers to the family. Thank you."

Representative Ward: "Mr. Speaker, may I also share the disappointment and the sadness of hearing of his passing. Sam and I were friends. Sam was probably the lead international voice in the House for a number of years. He and I basically had a coalition, sometimes even against my colleague from Kailua, who didn't always champion the international. So hearing of Sam's passage is a blow as a friend, as a person, and as someone who really helped Hawaii and the nation by his career as a Foreign Service officer. He will be greatly missed and I'm happy that we're going to honor him as we close this session."

At this time, the Members of the House of Representatives stood for a moment of silence in honor of the late former Representative Samuel S.H. Lee.
